WSR 22-17-007 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-157—Filed August 3, 2022, 3:34 p.m., effective August 5, 2022]

Effective Date of Rule: August 5, 2022.

Purpose: Amends recreational salmon rules in Puget Sound Marine Area 9.

Citation of Rules Affected by this Order: Repealing WAC 220-313-06000E; and amending WAC 220-313-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The current estimate of Chinook harvest for the summer fishery is 4,101 of the harvest quota of 4,700 (87 percent) agreed to in this year's list of agreed fisheries. Chinook retention is being suspended in Marine Area 9 beginning 12:01 a.m., Friday, August 5, when it is anticipated harvest quota will be reached. There is insufficient time to adopt permanent rules.

WSR 22-17-009 **EMERGENCY RULES** DEPARTMENT OF

LABOR AND INDUSTRIES

[Filed August 4, 2022, 8:05 a.m., effective August 4, 2022, 8:05 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The department of labor and industries (L&I) continues to respond to 2021 legislation establishing employer requirements during a public health emergency for infectious and contagious diseases. The employer requirements are under SSB 5254, codified as RCW 49.17.485, regarding voluntary use of personal protective equipment (PPE) and ESSB 5115, also known as the Health Emergency Labor Standards Act (HELSA), and codified as RCW 49.17.062 and 49.17.064.

The emergency rule maintains requirements under new sections of chapter 296-62 WAC for when there is a public health emergency for an infectious or contagious disease and as such, the requirements are applicable to COVID-19.

Under the emergency rule:

- Employers with more than 50 covered employees at a workplace or worksite are required to report infectious or contagious disease outbreaks to L&I;
- · Employees are not required to disclose any medical condition or diagnosis to their employer;
- · Several definitions were added and/or simplified for implemen-
- Nonhealthcare employers are required to notify employees, as well as their union representative (if any), in writing of potential exposures within one business day;
- Employees and contractors must be permitted to voluntarily use personal protective equipment.

In addition, this emergency rule now applies notification requirements to health care facilities as defined in RCW 9A.50.010.

- · Employers of health care facilities must notify any employee with known or suspected high-risk exposure to the infectious or contagious disease within 24 hours. With employee authorization, notification must also be sent to the employee's union representative (if any) within 24 hours.
- Period of transmission/isolation requirements have been simplified;
- Requirements for how employees are notified of potential high risk exposure are clarified.

A CR-101 Preproposal statement of inquiry was filed on May 13, 2021 (WSR 21-11-05[1]), and initiated the permanent rule-making process for rules related to infectious diseases, which will include requirements for outbreaks subject to a public health emergency under a national or state declared state of emergency. This emergency rule supersedes WSR 22-09-003 filed on April 6, 2022.

Citation of Rules Affected by this Order: New WAC 296-62-601, 296-62-602, 296-62-603, 296-62-604, 296-62-605, 296-62-606, 296-62-607, 296-62-608, and 296-62-609.

Statutory Authority for Adoption: RCW 49.17.010, 49.17.040, 49.17.050, and 49.17.[0]60.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: RCW 49.17.485 became effective April 26, 2021, and RCW 49.17.062 and 49.17.064 became effective on May 11, 2021, requiring L&I to take action to implement both SSB 5254 and ESSB 5115. On February 29, 2021, Governor Inslee proclaimed a statewide state of emergency to respond to the continuing spread of COVID-19 which resulted in a global pandemic, Proclamation 20-05. Subsequent proclamations have been issued related to the pandemic response, including those with restrictions on business activities under Proclamation 20-25, et seq., initially entitled "Stay Home, Stay Healthy" and the most recent amendment titled "Washington Ready" under Proclamation 20-25.19. Washington state is still in the midst of a public health state of emergency battling the COVID-19 pandemic. In addition, President Biden continued the national emergency concerning the COVID-19 pandemic with notice published in the Federal Register on February 23, 2022 (87 F.R. 10589).

These emergency rules are necessary to further respond to and diminish the spread of COVID-19, alert public officials to workers exposure to COVID-19 to allow for adequate responses to outbreaks, and to reduce the number of outbreaks, keeping Washington workers safe.

Washington State Register, Issue 22-17 WSR 22-17-013

WSR 22-17-013 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-159—Filed August 4, 2022, 1:58 p.m., effective August 4, 2022, 1:58 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Amend recreational shrimp rules in Puget Sound.

Citation of Rules Affected by this Order: Repealing WAC 220-330-07000P; and amending WAC 220-330-070.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This regulation is needed to ensure an orderly fishery, manage the fishery within court-ordered sharing requirements, and ensure conservation. There is sufficient recreational spot shrimp share to support a limited number of days in the marine areas listed in this section. In addition, this emergency regulation opens the Marine Areas 4 (east of the Bonilla-Tatoosh line), 5, 6, and 7 West seasons one hour before sunrise to one hour after sunset, which is the default daily start and end time for those areas. This regulation maintains the recreational nonspot shrimp fisheries already open in Marine Areas 7 East, 8-1, 8-2, 9, 11, and 13. The nonspot shrimp fisheries have maximum depth restrictions specific to each area to limit capture and handling of spot shrimp. Spot shrimp must be immediately released unharmed during nonspot shrimp seasons. There is insufficient time to adopt permanent rules.

WSR 22-17-017 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-158—Filed August 4, 2022, 4:11 p.m., effective August 4, 2022, 4:11 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this emergency rule is to modify weekly landing and possession limits for the coastal troll fishery.

Citation of Rules Affected by this Order: Repealing WAC 220-354-30000I; and amending WAC 220-354-300.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: A harvestable quota of salmon is available for the troll fleet. This regulation is necessary to both meet conservation limits and to provide fishing opportunity and its corresponding economic benefit. These rules are adopted at the recommendation of the Pacific Fisheries Management Council, in accordance with preseason fishing plans, and have been adopted for federal waters by the National Oceanic and Atmospheric Administration. There is insufficient time to adopt permanent rules.

[Filed August 10, 2022, 1:40 p.m., effective August 10, 2022, 1:40 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Communities continue to experience a public health crisis related to the outbreak of the novel coronavirus, COVID-19. Citation of Rules Affected by this Order: Amending WAC 181-82-110.

Statutory Authority for Adoption: Chapter 28A.410 RCW.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Clarify the assignment policy related to the transitional certificate and reduce confusion for educators who face ongoing challenges due to COVID-19.

WSR 22-17-042 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-163—Filed August 10, 2022, 1:57 p.m., effective August 18, 2022]

Effective Date of Rule: August 18, 2022.

Purpose: The purpose of this emergency rule is to [update] fall Chinook seasons in portions of the Snake River.

Citation of Rules Affected by this Order: Amending WAC 220-312-050.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The 2022 Columbia River forecasted return of upriver bright adults is 230,400, with a significant portion of these fish expected to return to the Snake River. This forecast is large enough to allow for Chinook harvest in the Snake River. The upriver bright stock primarily returns to the Hanford reach and Snake River sections of the Columbia River and the United States v. Oregon Management Agreement reaches only to the confluence of the Snake River. There is no Endangered Species Act component in this section of the Columbia River, and Washington has its own fish management and evaluation plan with Idaho for the Snake River itself. Because of these factors, the opening of this fishery by emergency rule is needed [to] maintain concurrency with Idaho's salmon rules and season openings for the Snake River.

WSR 22-17-044 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-164—Filed August 10, 2022, 4:10 p.m., effective August 10, 2022, 4:10 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this emergency rule is to adjust commercial coastal troll weekly Chinook limits.

Citation of Rules Affected by this Order: Repealing WAC 220-354-30000J; and amending WAC 220-354-300.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: A harvestable quota of salmon is available for the troll fleet. This regulation is necessary to both meet conservation limits and to provide fishing opportunity and its corresponding economic benefit. These rules are adopted at the recommendation of the Pacific Fisheries Management Council, in accordance with preseason fishing plans, and have been adopted for federal waters by the National Oceanic and Atmospheric Administration. There is insufficient time to adopt permanent rules.

[Order 22-166—Filed August 11, 2022, 4:33 p.m., effective August 12, 2022]

Effective Date of Rule: August 12, 2022.

Purpose: The purpose of this emergency rule is to open salmon seasons in a portion of Catch Record Card Area 10.

Citation of Rules Affected by this Order: Amending WAC 220-313-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: In-season test and fisheries catch information indicates that the expected Chinook return to the Green/ Duwamish River is in line with the preseason predicted return. Comanagers agree that additional fishing opportunities would not compromise agreed-to management objectives or brood stocking goals. There is insufficient time to adopt permanent rules.

WSR 22-17-055 **EMERGENCY RULES** DEPARTMENT OF HEALTH

[Filed August 12, 2022, 9:21 a.m., effective August 12, 2022, 9:21 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: WAC 246-341-0342 Agency licensure and certification— Off-site locations. The department of health (department) is continuing emergency rule amendments to WAC 246-341-0342 to define a mobile unit for behavioral health agencies in Washington and allow opioid treatment programs (OTPs) to add a mobile unit as an extension of their existing license. This will align existing rule with the federal changes published in Title 21 C.F.R., Parts 1300, 1301, and 1304. On July 28, 2021, these federal rules were revised to allow OTPs to operate mobile units under their existing federal Drug Enforcement Administration (DEA) license. Although current behavioral health agency (BHA) licensing and certification rules reference 21 C.F.R., these rules went into effect on July 1, 2021, prior to the federal change, and need to be updated to ensure that OTPs in Washington are complying with the current version of the federal rule. The amendments to WAC 246-341-0342 define what a mobile unit is, require OTPs to notify the department in writing prior to operating a mobile unit, and outline requirements for OTPs that operate a mobile narcotic treatment program. These requirements include submitting a copy of the DEA approval for the unit and complying with 21 C.F.R. Parts 1300, 1301, and 1304. This emergency rule continues amendments originally filed December 15, 2021, under WSR 22-01-147, and extended on April 14, 2022, under WSR 22-09-041. The department is considering this amendment for permanent rule making. A preproposal statement of inquiry (CR-101) has been filed as WSR 21-14-010 and the department is currently preparing a notice of proposed rule making (CR-102) for filing.

Citation of Rules Affected by this Order: Amending WAC 246-341-0342.

Statutory Authority for Adoption: RCW 71.24.037, 71.24.585, 71.24.595.

Other Authority: Title 21 C.F.R., Parts 1300, 1301, and 1304. Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest; and that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: This emergency rule updates department rules to align with the recently updated federal rules in Title 21 C.F.R., which allow OTPs to add and operate a mobile unit under their existing DEA license. Without this change, the rules would direct OTPs to comply with an outdated version of federal regulations that did not include the ability to operate a mobile OTP component. Furthermore, this continues to be a public health issue as a result of the ongoing opioid crisis in Washington state, which has been exacerbated by the coronavirus disease 2019 (COVID-19) pandemic. This amendment will allow the department to continue approving mobile units without delay, increasing access to treatment for individuals who suffer from opioid use disorder, while maintaining regulatory oversight to ensure client and public safety.

WSR 22-17-061 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-168—Filed August 12, 2022, 3:19 p.m., effective August 13, 2022]

Effective Date of Rule: August 13, 2022.

Purpose: The purpose of this emergency rule is to open commercial reef net seasons in Puget Sound Salmon Management and Catch Reporting Areas 7 and 7A.

Citation of Rules Affected by this Order: Amending WAC 220-354-180.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is needed to provide for Pacific Salmon Commission authorized commercial fisheries in Puget Sound Management and Catch Reporting Areas 7 and 7A. These fisheries have been authorized by The Fraser River Panel as part of the Pacific Salmon Treaty. In-season information indicates that there are harvestable sockeye available for United States fisheries. There is insufficient time to adopt permanent rules.

WSR 22-17-062 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-165—Filed August 12, 2022, 3:25 p.m., effective August 12, 2022, 3:25 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Permanent rules regulating state commercial shrimp harvest in Puget Sound and the Strait of Juan de Fuca require adoption of harvest seasons contained in this emergency rule. This emergency rule:

WAC 220-340-52000B

- (1) Closes Subarea 23A-W and MFSF Catch Reporting Area 23B in Puget Sound to commercial harvest of spot shrimp one hour after sunset on August 16, 2022.
- (2) Allows spot shrimp commercial harvest from select subareas and subregions simultaneously in a single day.
- (3) Allows nonspot shrimp commercial harvest from select subareas and subregions simultaneously in a single day.

Citation of Rules Affected by this Order: Repealing WAC 220-340-52000A; and amending WAC 220-340-520.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is necessary to prosecute state commercial shrimp pot and trawl fisheries in Puget Sound. This rule allows harvesters to both respond to dynamic changes in market conditions and promotes full utilization of both the commercial spot and nonspot shares. These rules are in congruence with comanager agreements. There is insufficient time to adopt permanent rules.

WSR 22-17-070 **EMERGENCY RULES** DEPARTMENT OF

LABOR AND INDUSTRIES

[Filed August 16, 2022, 8:55 a.m., effective August 16, 2022, 8:55 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: This emergency rule allows the factory assembled structure program (program) to effectively approve plans for commercial coach trailers, factory-built housing and commercial structures, recreational park trailers (RPTs), recreational vehicles (RVs), and conversion vendor units (food trucks and trailers) as required under RCW 43.22.360 and 43.22.480. The rule language includes changes to chapters 296-150C and 296-150F WAC that clarify plan submission requirements. The rule adds provisions to chapters 296-150P, 296-150R, and 296-150V WAC to allow plans for RPTs, RVs, and conversion vendor units to be reviewed and approved by a licensed professional engineer, architect, or firm as authorized by RCW 43.22.360(3).

This emergency rule is needed to allow the program to continue addressing a backlog of more than 900 design plans that still exists, while permanent rules are being developed.

Citation of Rules Affected by this Order: New WAC 296-150P-0315, 296-150P-0520, 296-150P-0530, 296-150P-0540, 296-150P-0550, 296-150P-0560, 296-150P-0570, 296-150P-0580, 296-150P-0590, 296-150P-3001, 296-150R-0315, 296-150R-0520, 296-150R-0530, 296-150R-0540, 296-150R-0550, 296-150R-0560, 296-150R-0570, 296-150R-0580, 296-150R-0590, 296-150R-3001, 296-150V-0420, 296-150V-0430, 296-150V-0440, 296-150V-0450, 296-150V-0460, 296-150V-0470, 296-150V-0480, 296-150V-0490 and 296-150V-3001; and amending WAC 296-150C-0310, 296-150C-0420, 296-150C-0430, 296-150C-0460, 296-150C-0480, 296-150F-0310, 296-150F-0420, 296-150F-0430, 296-150F-0460, 296-150F-0480, 296-150P-0020, and 296-150V-0310.

Statutory Authority for Adoption: RCW 43.22.360(3), 43.22.480(3). Under $RC\overline{W}$ 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule making allows the program to address the backlog of 900 design plans that still exists, while permanent rules are being developed. The department of labor and industries (L&I) plans to file a preproposal statement of inquiry (CR-101) to initiate the permanent rule-making process on August 16, 2022. L&I will be seeking input from stakeholders in the development of the permanent rules.

In February 2020, a state of emergency was declared in Washington state to respond to the COVID-19 virus, which ultimately became a global pandemic. L&I has been involved in several efforts to respond to the pandemic effects on the economy, employment, and worker safety. As a result of L&I's response, resources and staffing shortages in the program have developed a backlog of plans for review and approval. This emergency rule is needed to protect the general welfare of Washingtonians by ensuring plans for commercial coaches, factory-built housing and commercial structures, RPTs, RVs, and conversion vendor units are approved in a timely manner and inspected to the safety

standards of chapters 296-150C, 296-150F, 296-150P, 296-150R, and 296-150V WAC. If the emergency rule is not adopted, the backlog of plans needing review by the program will significantly increase and likely cause serious harm to the entire FAS industry by impacting production as well as putting the public at risk of harm due to the lack of safety inspections for these structures prior to them being used by businesses and the public.

As of this filing, the program has more than 900 plans waiting for review by the program's seven plan examiners. L&I has worked aggressively to hire more plan reviewers. These plans are for all the types of structures identified above and include everything from simple RV trailers to large commercial buildings.

The backlog has also created delays in public safety inspections of factory-built housing and commercial structures and of conversion vendor units (food trucks and trailers) because inspections cannot be performed without approved plans. In addition, lacking plans for some of their designs, the RV and RPT industries face delays in sending their products to Washington as they cannot apply Washington labels to models that have not been reviewed and approved.

These changes and additions made in the emergency rule will help address and reduce the backlog of plan reviews and promote timely public safety inspections by providing for "licensed professional" plan reviews for the program. This will provide manufacturers with an alternate method to obtain approved plans in a timely manner, thus helping businesses remain in business or continue business operations. The emergency rule and its impact on the backlog of reviews and inspections will support restaurants and other types of businesses complying with COVID-19 requirements by allowing those businesses to serve people outside, and keep workers safely distanced from the public according to state and local social distancing guidelines. In addition, updating the existing rules in chapters 296-150C and 296-150F WAC will make it easier for manufacturers using licensed professional reviews by simplifying and clarifying our requirements for those types of plans.

WSR 22-17-076 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-170—Filed August 16, 2022, 12:24 p.m., effective August 17, 2022]

Effective Date of Rule: August 17, 2022.

Purpose: The purpose of this emergency rule is to close Chinook retention in Catch Record Card Area 11, except for year-round piers. Citation of Rules Affected by this Order: Amending WAC 220-313-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is necessary because the current estimate of Chinook harvest for the summer is 2,724 (97 percent) of the total harvest quota of 2,816 and 2,247 (67 percent) of the total sublegal encounter limit of 3,373 agreed to in this year's list of agreed fisheries. The harvest quota for Chinook is nearly taken, suspending Chinook retention now will allow coho retention to continue through the summer. There is insufficient time to adopt permanent rules.

WSR 22-17-084 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-171—Filed August 17, 2022, 5:05 p.m., effective August 19, 2022]

Effective Date of Rule: August 19, 2022.

Purpose: The purpose of this emergency rule is to make it unlawful to possess Chinook onboard a vessel in Catch Record Card Area 2 on days Chinook retention is closed (Fridays and Saturdays).

Citation of Rules Affected by this Order: Repealing WAC 220-313-07500L; and amending WAC 220-313-075.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is needed to extend Chinook season lengths in Catch Record Card Area 1. Pressure from anglers traveling to Catch Record Card Area 1 for Chinook from Catch Record Card Area 2 threatens to shorten Chinook retention and salmon seasons in Area 1. Closing Chinook possession on days closed to Chinook retention in Area 2 will allow salmon seasons in Area 1 to remain open as long as possible. In addition, closing Chinook retention in Area 2 altogether, beginning August 23, will allow significant angling opportunity later into the season for the substantial coho quota (62,160) in the area. There is insufficient time to adopt permanent rules.

WSR 22-17-087 **EMERGENCY RULES** STATE BOARD OF HEALTH

[Filed August 18, 2022, 9:06 a.m., effective August 18, 2022, 9:06 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: WAC 246-101-017 Novel coronavirus (SARS-CoV-2), coronavirus disease 2019 (COVID-19) reporting. The Washington state board of health has adopted an eighth emergency rule to continue to designate COVID-19 as a notifiable condition and establish reporting requirements for health care providers, health care facilities, laboratories, local health jurisdictions, and the department of agriculture to report certain data with COVID-19 test results, including relevant demographic details (e.g., patient's age, race, ethnicity, sex), and testing information. The rule allows for certain waivers by a local health officer. The rule establishes what testing and demographic data need to be reported as well as the timing and mechanism of reporting in accordance with Public Law 116-136, § 18115(a), the Coronavirus Aid, Relief, and Economic Security (CARES) Act.

Citation of Rules Affected by this Order: New WAC 246-101-017. Statutory Authority for Adoption: RCW 43.20.050 (2)(f).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest; and that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: The immediate adoption of a rule to designate COVID-19 as a notifiable condition, and require the reporting of demographic, testing, and other relevant data by health care providers, health care facilities, laboratories, local health jurisdictions, and the department of agriculture for each COVID-19 test is necessary to comply with federal law and related guidance. Immediate adoption of this rule is necessary for the preservation of the public health, safety, and general welfare of the state of Washington during the global COVID-19 pandemic.

The CARES Act requires "every laboratory that performs or analyzes a test that is intended to detect SARS-CoV-2 or to diagnose a possible case of COVID-19" to report the results from each such test to the Secretary of the United States Department of Health and Human Services (HHS). The act authorizes HHS secretary to prescribe the form, manner, timing, and frequency of such reporting. HHS secretary released laboratory data reporting guidance for COVID-19 on June 4, 2020, and later updated the guidance on January 8, 2021, and March 8, 2022. The guidance requires all COVID-19 test results and accompanying data be reported through existing state, territorial, local, and tribal public health data reporting methods. Of these requirements, any person or entity ordering a test, registering an individual to be tested, collecting a specimen, or performing a test should make every reasonable effort to collect complete demographic data of the patient (e.g., ethnicity, race, age, sex). Updated guidance specifies which test results must be reported by entities based on entity and test type, and refines the list of reportable data components that must accompany test results.

In September 2020, the Centers for Medicare and Medicaid Services (CMS) published an interim final rule in Federal Register 54826, Volume 85, Number 171, to update requirements for reporting SARS-CoV-2 test results by laboratories. The interim final rule states all laboratories conducting SARS-CoV-2 testing and reporting patient-specific results, including hospital laboratories, nursing homes, and other facilities conducting testing for COVID-19, who fail to report information required under the CARES Act will be subject to monetary penalties. The interim final rules became effective September 2, 2020.

Adoption of an eighth emergency rule ensures continued compliance with the CARES Act, including updated HHS guidance, CMS requirements, and maintenance of the necessary public health response to COVID-19. The board intends to incorporate these provisions into permanent rule, and filed a CR-101 on July 20, 2021, as WSR 21-15-105.

NEW SECTION

WAC 246-101-017 Novel coronavirus (SARS-CoV-2), coronavirus disease 2019 (COVID-19) reporting. (1) Designating coronavirus disease 2019 (COVID-19), and the novel coronavirus (SARS-CoV-2) that causes it, as a notifiable condition, and requiring the reporting of race and ethnicity and other essential data by health care providers, health care facilities, laboratories, and local health departments related to cases of COVID-19 are necessary to ensure that public health agencies receive complete notice of COVID-19 cases and to address racial and ethnic inequities in morbidity and mortality among individuals with the disease. This rule is also necessary to align with the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act and the U.S. Department of Health and Human Services laboratory data reporting requirements for COVID-19 testing, which require reporting of COVID-19 data to the appropriate state or local health department and the U.S. Department of Health and Human Services, and further, that any person or entity ordering a diagnostic or serologic test, collecting a specimen, or performing a test should make every reasonable effort to collect complete demographic information and include such data when ordering a laboratory test to enable the entities performing the test to report these data to state, territorial, local, and tribal public health departments. During this global pandemic, immediate adoption of a rule requiring notice of novel coronavirus (SARS-CoV-2) as a notifiable condition and reporting of race, ethnicity, and other essential data is necessary for the preservation of public health, safety, and general welfare.

WSR 22-17-090 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-175—Filed August 18, 2022, 12:40 p.m., effective September 10, 2022]

Effective Date of Rule: September 10, 2022.

Purpose: The purpose of this emergency rule is to open recreational sturgeon retention seasons for a portion of the Columbia River and the Cowlitz River.

Citation of Rules Affected by this Order: Amending WAC 220-312-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is needed to allow a limited harvest of white sturgeon in the Columbia River from the Wauna powerlines upstream to Bonneville Dam and the Cowlitz River. The legal-size population is large enough to allow for a retention fishery within the lower Columbia River. This action is consistent with decisions made by the states of Washington and Oregon during the Columbia River compact hearing on August 18, 2022. There is insufficient time to adopt permanent rules.

WSR 22-17-096 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-174—Filed August 18, 2022, 4:14 p.m., effective August 18, 2022, 4:14 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this rule making is to provide for treaty Indian fishing opportunity in the Columbia River while protecting salmon listed as threatened or endangered under the Endangered Species Act (ESA). This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes and federal law governing Washington's relationship with Oregon.

Citation of Rules Affected by this Order: Repealing WAC 220-359-02000F; and amending WAC 220-359-020.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.04.130, 77.12.045, and 77.12.047.

Other Authority: United States v. Oregon, Civil No. 68-513-KI (D. Or.), Order Adopting 2018-2027 United States v. Oregon Management Agreement (February 26, 2018) (Doc. No. 2607-1). Northwest Gillnetters Ass'n v. Sandison, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington fish and wildlife commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River Compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule opens the 2022 tribal fall commercial fisheries upstream of Bonneville Dam. This rule is consistent with actions of the Columbia River Compact on June 2, June 30, July 13, July 27, and August 18, 2022. Conforms state rules with tribal rules. The general public welfare is protected with the immediate opening of nontreaty buyers purchasing fish from treaty fisheries. This harvest opportunity allows for the tribal use and public access to the resource as well as the maintenance of sustainable fish populations. There is insufficient time to promulgate permanent regulations.

The Yakama, Warm Springs, Umatilla, and Nez Perce Indian tribes have treaty fishing rights in the Columbia River and inherent sovereign authority to regulate their fisheries. Washington and Oregon also have some authority to regulate fishing by treaty Indians in the Columbia River, authority that the states exercise jointly under the congressionally ratified Columbia River Compact. Sohappy v. Smith, 302 F. Supp. 899 (D. Or. 1969). The tribes and the states adopt parallel regulations for treaty Indian fisheries under the supervision of the federal courts. A court order sets the current parameters. United States v. Oregon, Civil No. 68-513-KI (D. Or.), Order Adopting 2018-2027 United States v. Oregon Management Agreement (February 26, 2018) (Doc. No. 2607-1). Some salmon and steelhead stocks in the Columbia River are listed as threatened or endangered under ESA. On February 23, 2018, the National Marine Fisheries Service issued a biological opinion under 16 U.S.C. § 1536 that allows for some incidental take of these species in the fisheries as described in the 2018-2027 U.S. v. Oregon Management Agreement.

Columbia River fisheries are monitored very closely to ensure consistency with court orders and ESA guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. As required by court order, the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and invite tribal participation when considering proposals for new emergency rules affecting treaty fishing rights. Sohappy, 302 F. Supp. at 912. WDFW and ODFW then adopt regulations reflecting agreements reached.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 220-359-02000F Columbia River salmon seasons. (22-149)

WSR 22-17-098 **EMERGENCY RULES** DEPARTMENT OF HEALTH

[Filed August 19, 2022, 7:11 a.m., effective August 19, 2022, 7:11 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: WAC 246-300-001 Licensed health care facilities and coronavirus disease 2019 (COVID-19). Extending the adoption of an emergency rule that establishes that all health care facilities licensed by the department of health must comply with state and federal statutes, administrative rules, lawful orders, and other legal requirements relating to the operation of the facility and the control or prevention of the spread of COVID-19, including orders issued by the governor, by the secretary of health, by a local board of health, and by a local health officer. This continues the emergency rule originally filed on December 23, 2021, as WSR 22-02-009 and extended on April 22, 2022, as WSR 22-10-007.

Citation of Rules Affected by this Order: WAC 246-300-001. Statutory Authority for Adoption: RCW 43.70.040, 18.46.060, 70.41.030, 70.42.220, 70.127.120, 70.230.020, 70.230.090, 71.12.670, 71.24.037.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: COVID-19 is an ongoing and present threat in Washington with continuing existence of COVID-19 cases and hospitalizations, primarily among unvaccinated populations, but also in breakthrough infections in some fully vaccinated individuals. Though some governor proclamations and associated health orders may change or lessen in scope over the course of the disease activity in Washington state, there continue to be requirements (such as vaccinations, use of personal protective equipment, and masking) for health care providers, and for patients and visitors to health care settings, including licensed health care facilities. Clarifying the applicability of state and federal statutes, administrative rules, lawful orders, and other legal requirements to licensed health care facilities will assist facilities to comply with these requirements and will assist the department in its efforts to ensure the health and safety of the workers, recipients of services, and visitors in those facilities.

The extension of this emergency rule and the clarity it brings to licensed health care facilities is necessary for the preservation of public health, safety, and general welfare. Observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to protecting immediate public interests.

Reasons for this Finding: This emergency rule closes harvest of Sea Cucumber Management District 2-2 because the quota in this area is expected to be taken by August 21, 2022. This closure is needed to fulfill obligations of state and tribal comanager agreements. There is insufficient time to adopt permanent rules.

All other provisions of WAC 220-340-730 not addressed herein, and unless otherwise amended, remain in effect:

WSR 22-17-117 **EMERGENCY RULES** DEPARTMENT OF FISH AND WILDLIFE

[Order 22-177—Filed August 22, 2022, 11:35 a.m., effective August 22, 2022, 11:35 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: (1) Closes all areas in Puget Sound to commercial harvest of spot shrimp one hour after sunset on August 23, 2022.

- (2) Opens Subregion 1C to commercial nonspot shrimp pot harvest, effective immediately following a release of converted trawl quota to the pot fishery.
- (3) Closes all areas in Puget Sound to commercial harvest of nonspot shrimp with pots on the agreed-to hard closure date of October 15, 2022.

- (5) Allows nonspot shrimp commercial harvest from select subareas and subregions simultaneously in a single day.

Citation of Rules Affected by this Order: Repealing WAC 220-340-52000B; and amending WAC 220-340-520.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Permanent rules regulating state commercial shrimp harvest in Puget Sound and the Strait of Juan de Fuca require adoption of harvest seasons contained in this emergency rule.

This emergency rule is necessary to prosecute state commercial shrimp pot and trawl fisheries in Puget Sound. This rule allows harvesters to both respond to dynamic changes in market conditions and promotes full utilization of both the commercial spot and nonspot shares. These rules are in congruence with comanager agreements. There is insufficient time to adopt permanent rules.

WSR 22-17-119 EMERGENCY RULES DEPARTMENT OF FISH AND WILDLIFE

[Order 22-178—Filed August 22, 2022, 3:53 p.m., effective August 23, 2022]

Effective Date of Rule: August 23, 2022.

Purpose: The purpose of this emergency rule is to close Chinook retention in Catch Record Card Area 1 and to reopen salmon fishing in the area within approximately three miles of the Washington shore.

Citation of Rules Affected by this Order: Repealing WAC 220-313-07500M; and amending WAC 220-313-075.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is needed to extend salmon season length in Catch Record Card Area 1. Area 1 catch is approaching the Chinook quota for the season, and a portion of that quota must be reserved to account for release mortalities if the area is to remain open for coho fishing. The coho quota for the area is 84,000, which will allow for significant angling opportunity during the remainder of the salmon season. There is insufficient time to adopt permanent rules.

These rules are adopted at the recommendation of the Pacific Fisheries Management Council, in accordance with preseason fishing plans, and have been adopted for federal waters by the National Oceanic and Atmospheric Administration.

There is insufficient time to adopt permanent rules.
